Purchase orders

I'd like to see past purchases.

Purchase orders

View past **purchase orders** with the ability to search by date, name, order ID, internal order ID, order type, and billing account.

The screenshot displays a software interface for viewing purchase orders. At the top, there are navigation links for 'Insights' and 'Purchase orders', along with a dropdown menu to 'Jump to a different report'. The main heading is 'Purchase orders'. Below this, summary statistics are shown: 'Total orders: 16', 'Total standard units: 30', and 'Total preorder units: 30'. Financial totals are listed as 'Standard units total (USD): \$12,4...' and 'Preorder units total (USD): \$2,819.41 (current)'. A table of filters is visible, including 'Date' (Last 30), 'Order type' (All), and 'Billing accounts' (All billing accounts). A 'Report options' dialog box is open in the center, featuring a 'Date' dropdown set to 'Last', a '30' value in a spinner box, and a 'Days' dropdown. Below this, there are input fields for 'Internal order ID', 'Order type' (set to 'All'), and 'Billing accounts' (set to 'All billing accounts'). The dialog has 'Update' and 'Cancel' buttons. A large, semi-transparent 'DEMONSTRATION' watermark is overlaid on the dialog box. In the background, a table of purchase orders is partially visible, with columns for 'Order name', 'Order description', 'Order type', 'Lending mode', 'Order ID', 'Billing account', and 'Recall...'. The table shows 16 rows of data, with the first row being '10NOV20Preord...' and the last row being 'Kids'.
