

Content for Students in Sora

Consider

How can your school support student learning with these digital content features?
How might your students might use these features? Consider the ideas below:

- **Aid research projects and use of multiple sources.**
- **Enable in-app lesson plans and assignments.**
- **Cultivate school community and “publish” student work.**
- **Increase reading time and help students find their “next great read.”**
- **Support differentiation and accommodation.**
