

Customize and Track Progress in Sora

Share

Before you share **customization** and **progress tracking** features with students, learn more with these resources:

Sora Help articles:

[How to mark a book as done](#)

[What's my activity?](#)

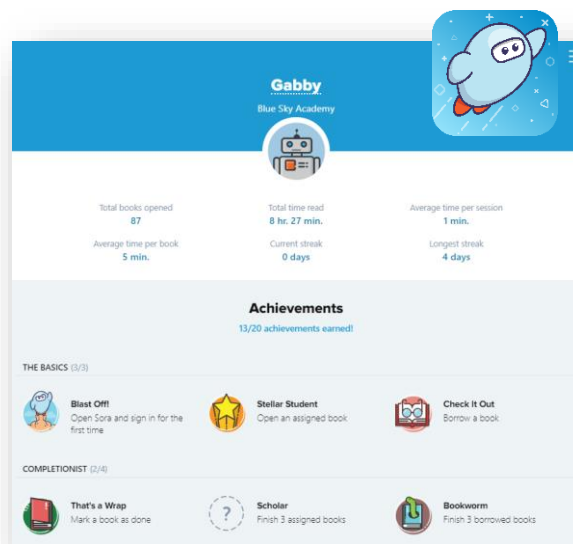

[What are lists?](#)

[How to enable dyslexic font](#)

How-to videos:

[Reading statistics and achievements](#)

[Enjoying ebooks](#) & [Enjoying audiobooks and other formats](#)

Consider

How can Sora's progress tracking and customization features benefit students? Consider how your students might utilize these features. Use the ideas below to begin brainstorming.

- **Inspire ownership over reading**
Customization provides control, which can increase students' investment in their own reading.
- **Provide structure and sustain motivation through gamification**
Sora provides structure for reluctant readers, while statistics and badges can add elements of gaming to increase student motivation.
- **Encourage time management and individual progress monitoring**
Sleep timers and the ability to track progress (while reading and overall) can support students' time management and progress monitoring efforts.
- **Support goal setting**
In-app statistics and achievements provide insight and can help students set SMART goals.
- **Enable students to share progress**
Students can screenshot their progress to share with parents and teachers.

More Resources

Help students share their success with the [print-ready Reading Achievements Board](#) or browse [outreach resources](#) to engage your school community. Use web graphics from the **Did You Know? Marketing Kit** to spread the word about Sora and its features on [social](#).
