

# Getting Started with Local Content

Publishing local work to your OverDrive collection

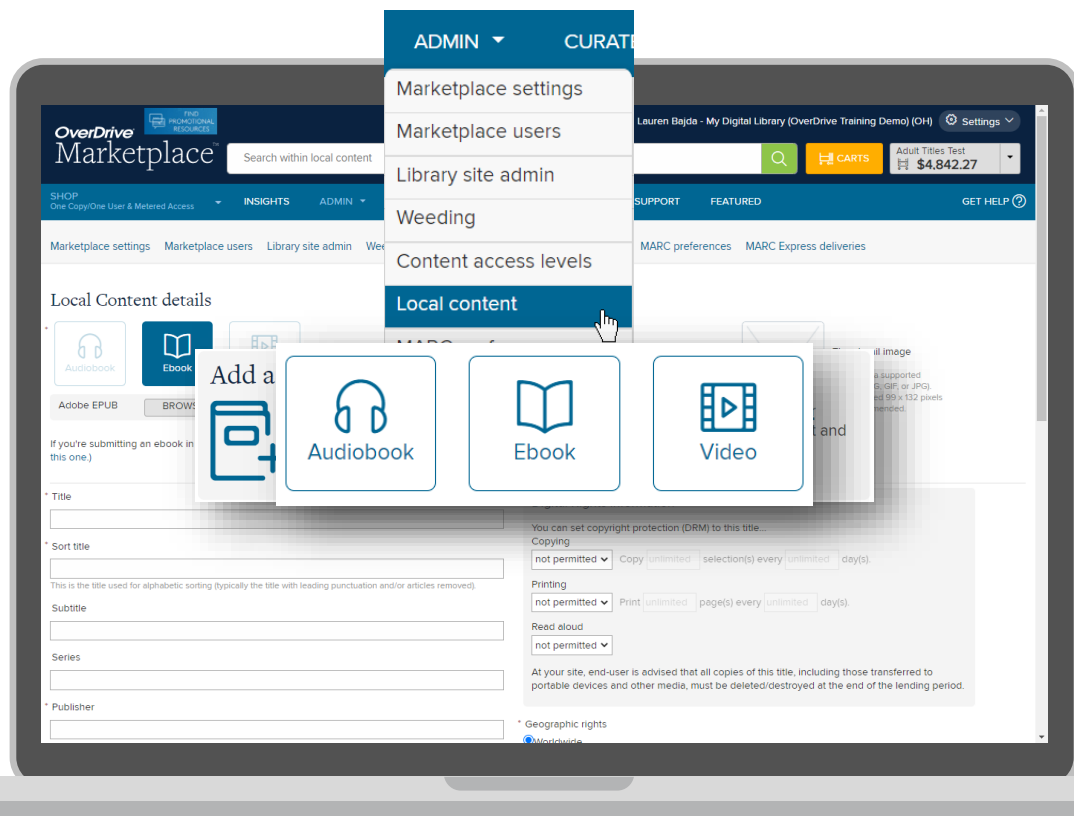

# Local Content overview

- Local Content is a way to publish your own ebooks, audiobooks, and video for users to borrow from your OverDrive website and Libby.
- You must have the [necessary ownership rights](#) to publish Local Content.
- Titles appear in Libby as a One Copy/One User title at no additional cost.\*

*\*For more information about lending models, such as One Copy/One User, please review our [lending models How-To video series](#) on the Resource Center.*

# Getting Started

- Marketplace > Admin > Local Content.
- Necessary ownerships rights, licenses and/or permissions.
- Create or convert a file into the MP3, EPUB or MP4 format.
- Required fields.
