

Curating Lists for Your Digital Library

Create curated and automated lists in OverDrive Marketplace

OverDrive[®]

Build lists of your digital titles and publish them to Libby and your OverDrive website in Marketplace.

Create a **curated** or **automated** list and consider Lucky Day lists for in-demand titles!

Standard lists

Select **Create standard list** to create automated or curated lists of titles you own, then publish them for your users to browse. This is a great way to showcase your content and boost circulation.

Curate your Advantage collection

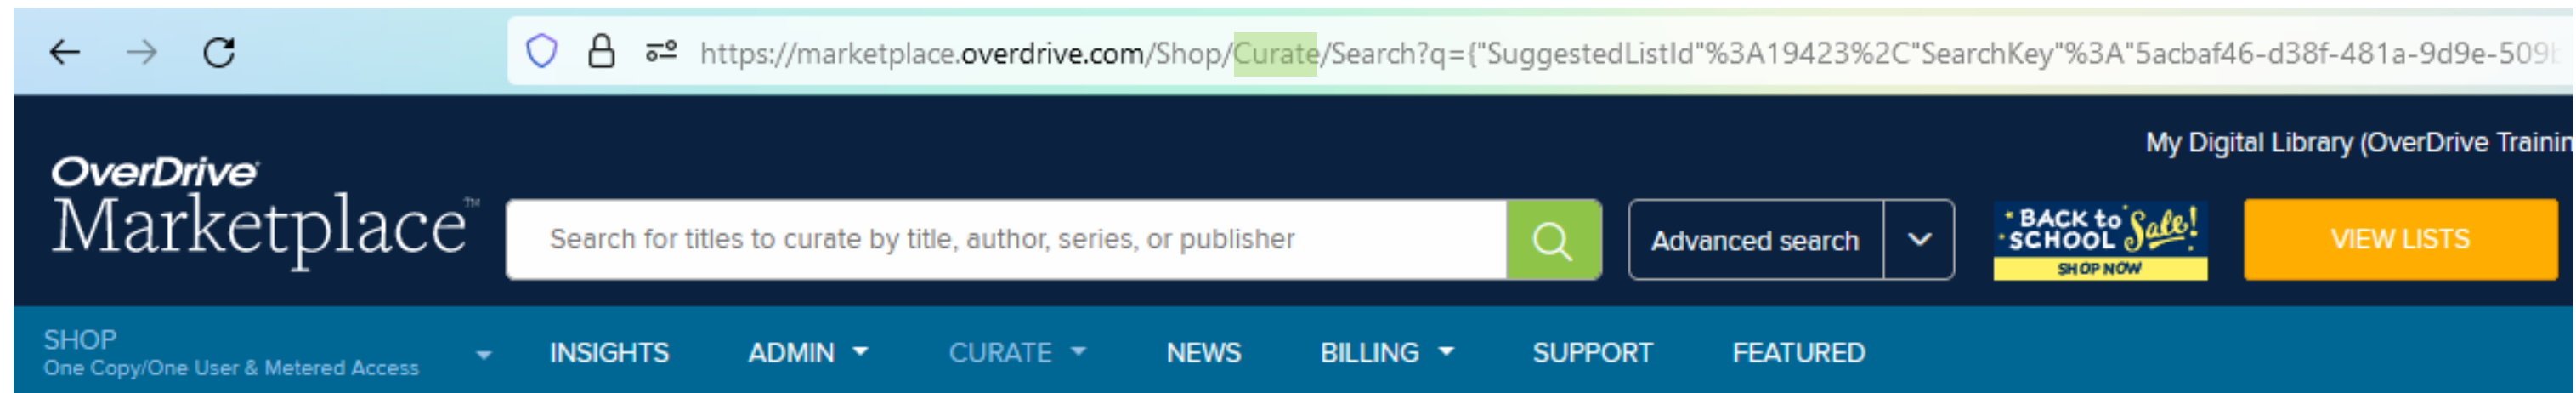

Advantage libraries can modify the consortium's curated lists or create their own.

1. Go to Curate > Organize published lists.
2. Select the location on the site where you'd like your collections to display.
3. Change the "Customize Advantage lists" setting to **YES**.

The screenshot shows the OverDrive Curate interface. At the top, there is a navigation bar with links for SHOP, INSIGHTS, ADMIN, CURATE, NEWS, BILLING, SUPPORT, and FEATURED. Below this, there are tabs for 'Standard curation', 'Lucky Day', and 'Organize published lists'. The 'Organize published lists' tab is active, showing a sidebar with categories like 'Main site', 'Kids', 'Teens', etc. The main content area is titled 'Main site - Home page lists' and contains instructions on how to create and manage lists. A 'CREATE LIST' button is visible in the top right. Below the main content, there is a 'Customize Advantage lists' section with a 'YES' button selected and a 'NO' button. The 'YES' button is highlighted in blue, indicating it is the selected option.

Curate from recommended lists

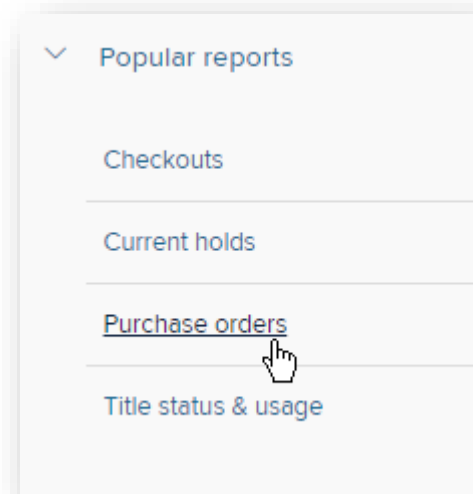

1. Open a [Recommended List](#) in Marketplace.
2. Edit the URL by replacing 'OneCopyOneUserandMeteredAccess' with 'Curate':

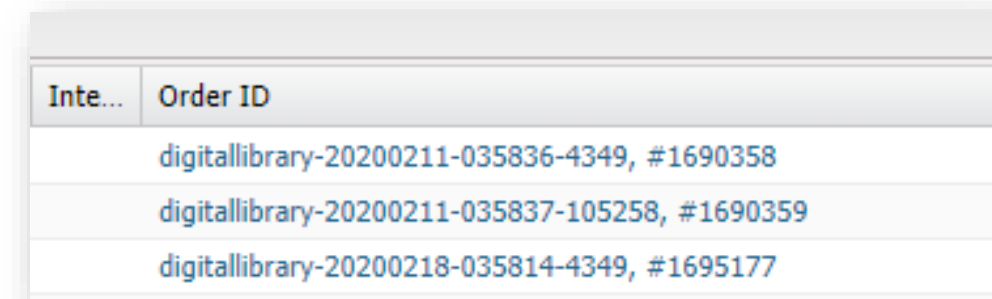

3. Add the titles to a new or existing list!

Curate from purchase orders

1. Click the **Insights** tab and open the **Purchase orders** report.

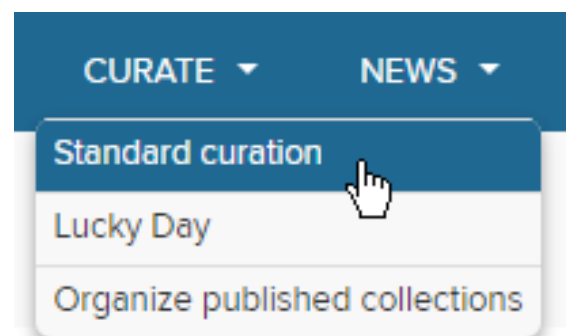

2. Copy the long or short “Order ID” from a purchase order you’d like to curate from.

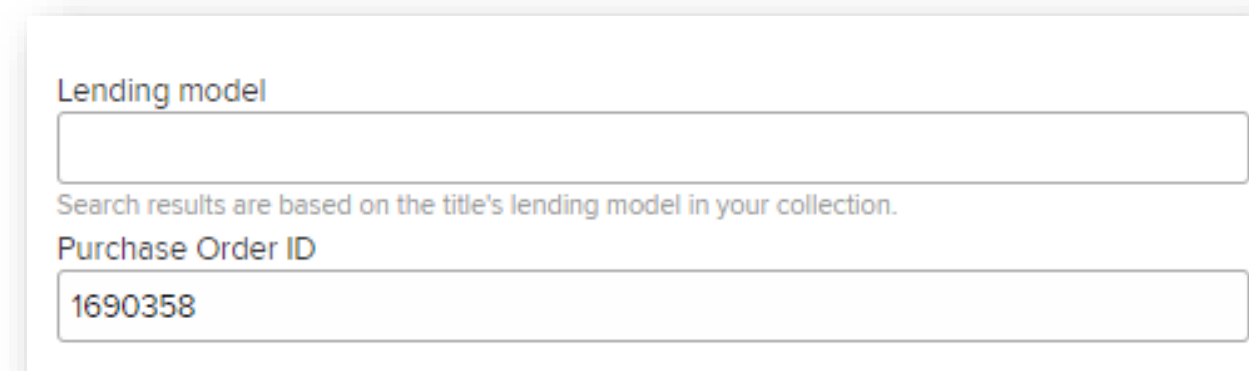

A screenshot of a table with two columns: 'Inte...' and 'Order ID'. The table contains three rows of data.

Inte...	Order ID
	digitallibrary-20200211-035836-4349, #1690358
	digitallibrary-20200211-035837-105258, #1690359
	digitallibrary-20200218-035814-4349, #1695177

3. Go to *Curate* > *Standard curation* then click **Advanced search** at the top of the page.

4. Search by “Purchase Order ID” to find all titles in a purchase order and add them to a new list.

A screenshot of a search form. The form has a 'Lending model' field and a 'Purchase Order ID' field. The 'Purchase Order ID' field contains the value '1690358'. Below the fields is a note: 'Search results are based on the title's lending model in your collection.'

Lending model

Search results are based on the title's lending model in your collection.

Purchase Order ID
